Current Mining Plan

Environment Monitoring Data

- Refer to monitoring data attachment

Complaints and Incidents

- There have been no community complaints since the last meeting and none received in 2022.
- There has been one environmental incidents since the last meeting where a small hole in the Borehole Pump 6 pipe was made by an excavator. The water was contained within the trench and the area cleaned up.

Environmental Update

- Monthly groundwater monitoring undertaken.
- Monthly noise monitoring undertaken. No issues identified.
- Ancillary approvals progressing (Mining Lease, Management Plans (etc.)).
- Works are upcoming on raising the western block banks in Bowman's Creek.
- Unannounced inspection carried out by Department of Planning and Environment Compliance inspector who "observed no significant dust or other issues".
- Inspection undertaken by Auditors conducting the three yearly independent environmental audit.

Environmental Update

- Lemington Rd Subsidence Monitoring and Maintenance Program
 - A-Plus Contracting conducting monitoring and maintenance works which commenced 13th Feb 2023 – ongoing for the next several months until subsidence impacts have ceased.
- Maintenance repairs will be ongoing (24/7) with traffic controls in place.

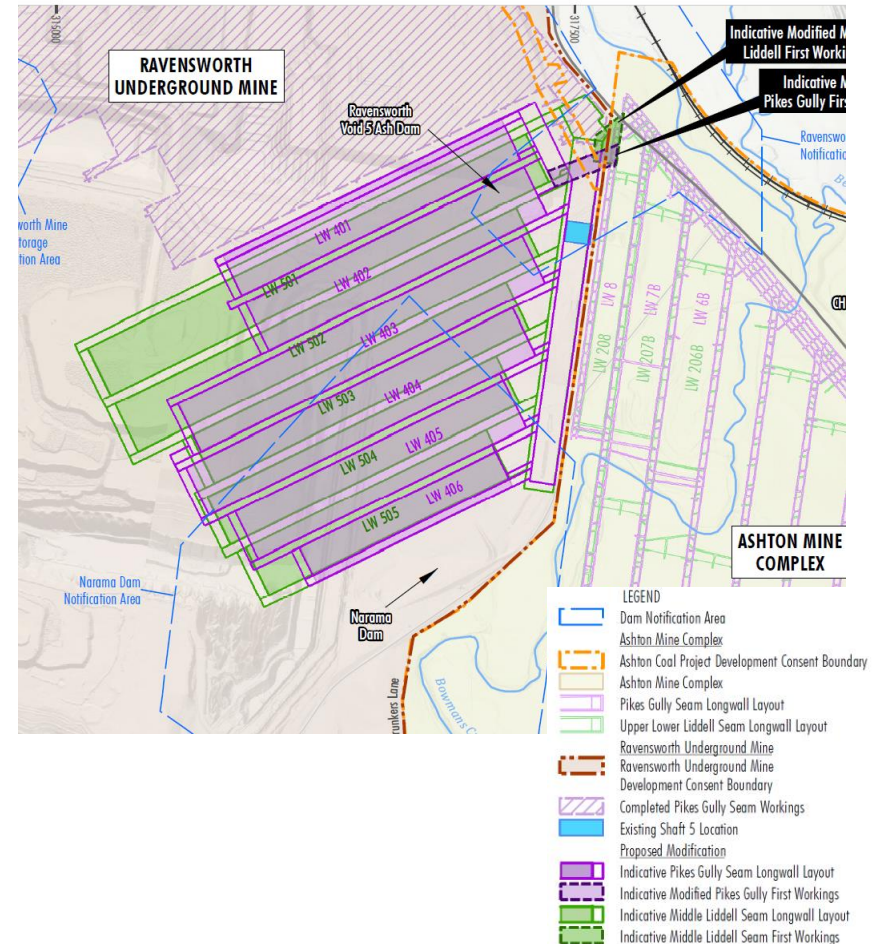

Environmental Update

- Aboriginal Community Consultative Forum held in December.
- Archaeological salvage works – LW207A.
 - Throughout February, our archaeologist (Liz Wyatt) from Stratum Archaeology has been onsite with representatives of the Registered Aboriginal Parties to continue artefact salvage works ahead of mining in LW207A. The current excavation has yielded ~100 artefacts/m² and is ongoing.

Ashton-Ravensworth Integration (RUMEx)

Modification Applications Update

- ML transfers from Ravensworth completed (Dec 2022).
- First working development commenced in January 2023 .
